ITWORX

JOURNEY TIMELINE

01

Learning Foundations & onboarding

02 – 03

Planning & Development

04

testing and Deployment

ITWORX®

TECHNICAL LEARNING

4-Week Strategic Learning Journey

1

Web Development

- React with TypeScript for Frontend
- ASP.NET for Backend

2

System Architecture Design Patterns

- Clean Architecture
- Repository Pattern
- Dependency Injection
- SOLID Principles

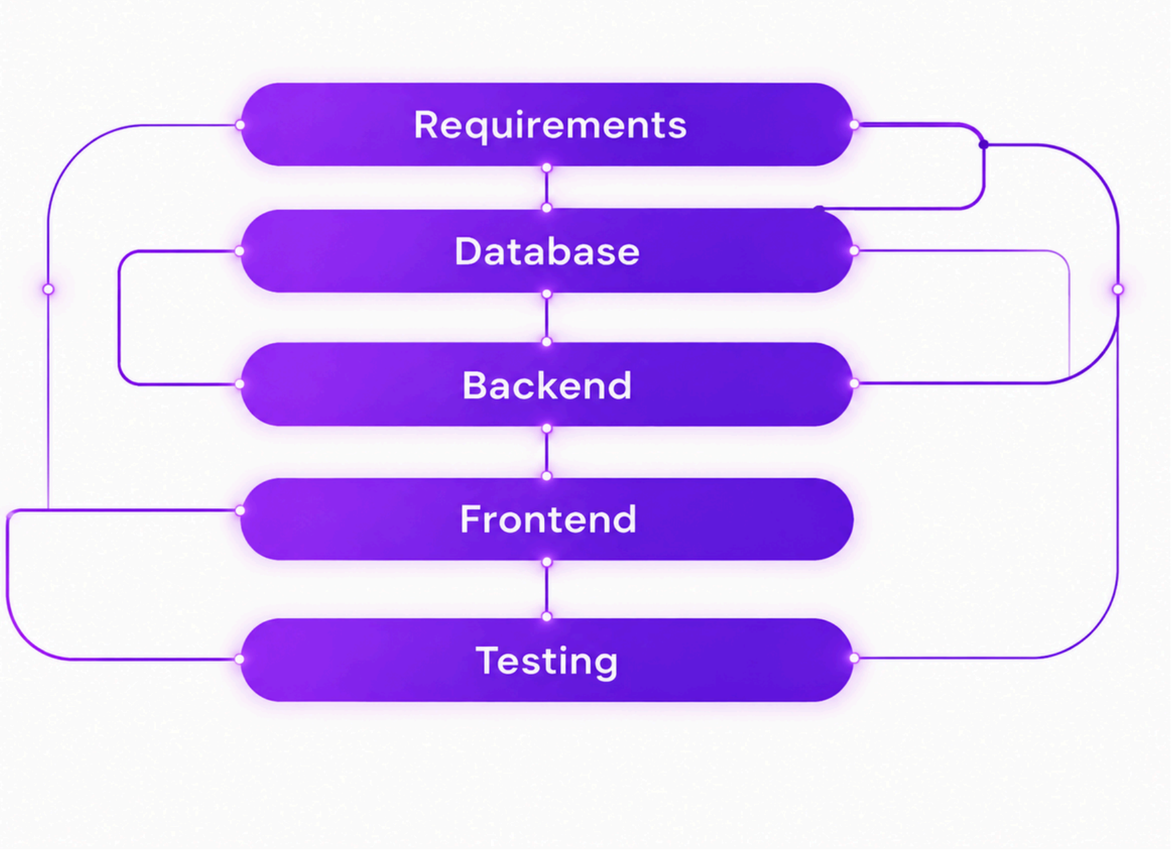

3

AI-Assisted Development

- Explain-and-Defend method

ITWORX®

ENGINEERING AND PROJECT EXPERIENCE

System Architecture Layers

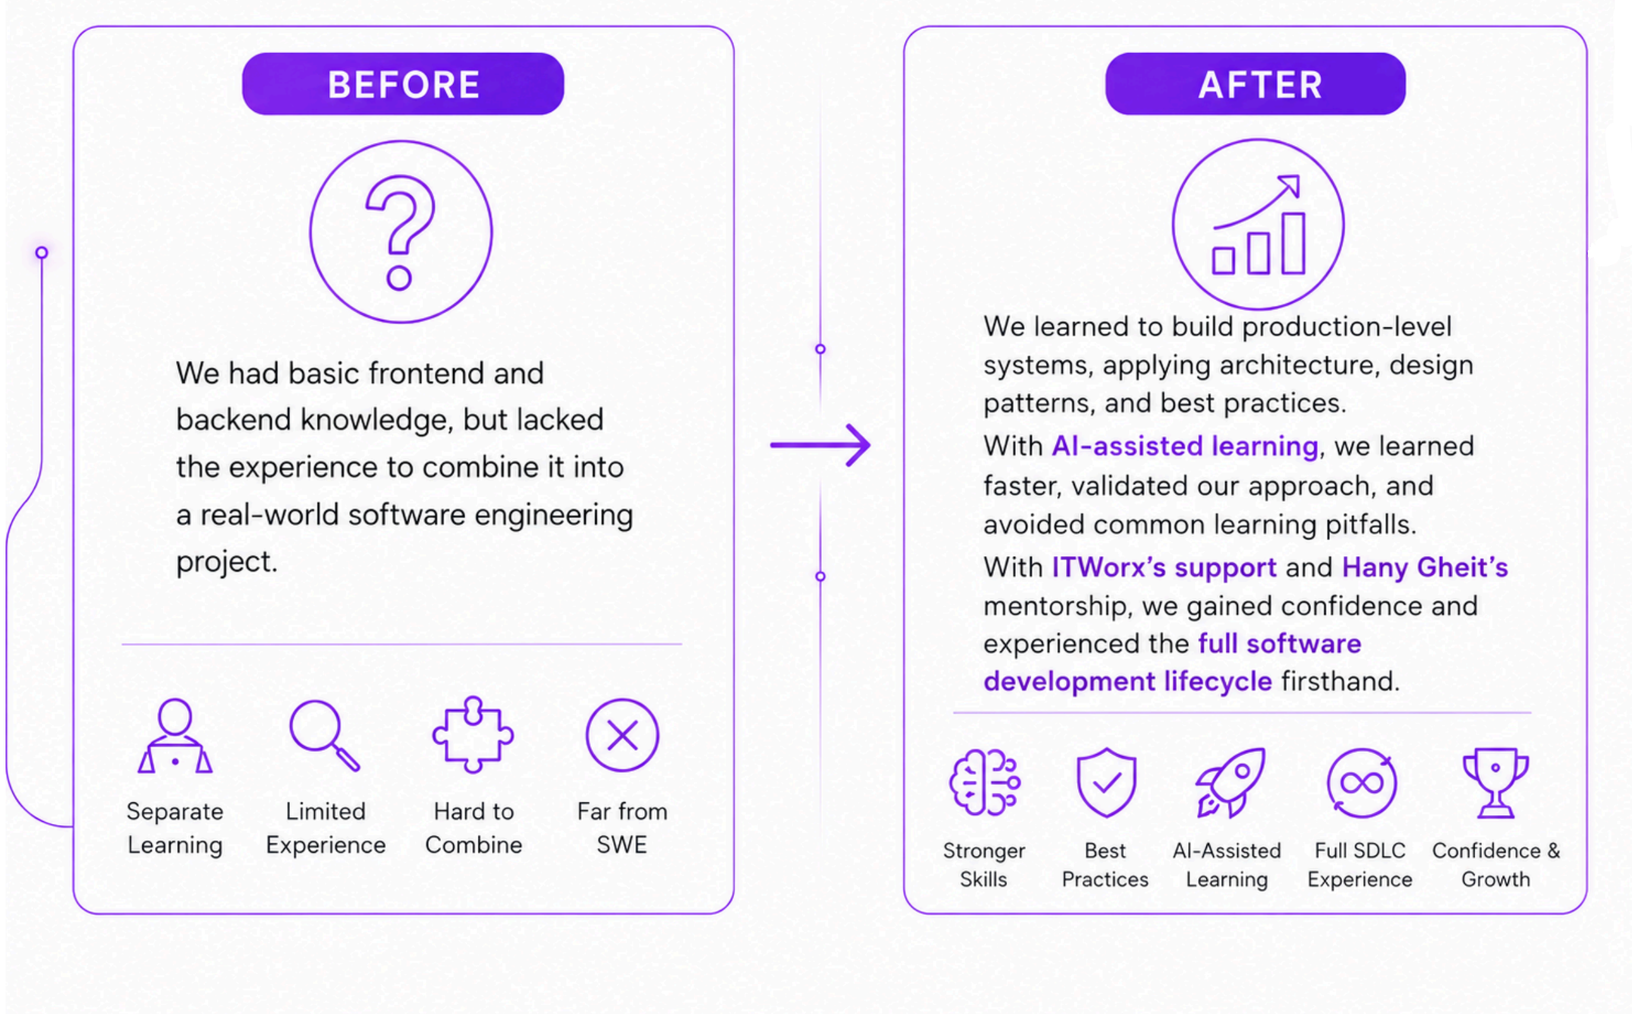

Requirements → Database Design → Backend → Frontend: Built end-to-end features across all layers of a clean architecture system, ensuring seamless data flow and separation of concerns.

Testing & Collaboration

Wrote unit and integration tests to validate core modules. Collaborated with team members via Git & GitHub, participating in code reviews and agile sprint planning sessions.

ITWORX

KEY LESSONS AND GROWTH

ITWORX

THANK YOU

GRATEFUL TO HAVE
BEEN AN ITWORXIAN.
